Your Ref.

Interserve Construction Ltd
A45 Eastbound
Sanders Lodge
Rushden
NN10 6AP

Dear Resident/Occupier

Re: A45 Rushden Lakes

Full closures of both the A45 Eastbound approach and departure, are scheduled for the nights of Monday 12th to Wednesday 14th June 2017, between 20:00 and 06:00 hrs. Full closures of both the A45 Westbound approach and departure, are scheduled for the nights of Thursday 15th to Friday 16th June 2017 and Monday 19th to Friday 23rd June 2017, between 20:00 and 06:00 hrs. Full closures of both the A45 Eastbound and Westbound approach and departures are scheduled for the nights of Saturday 17th and Saturday 24th June 2017, between 20:00 and 09:00 hrs. These closures are required for installation of the new pedestrian and cyclist overbridge.

During the A45 Eastbound approach and departure closures, the A45 Eastbound will be closed from Junction 14 (Little Irchester) to Junction 18 (Chowens Mill Roundabout). There will be access to the A45 Westbound only at the Skewbridge Roundabout, only via the B645 Northampton Road. Signed diversion routes will be installed.

During the A45 Westbound approach and departure closures, the A45 Westbound will be closed from Junction 18 (Chowens Mill Roundabout) to Junction 13 (Wilby Way Roundabout). There will be no access/egress to/from the A45 at the Skewbridge Roundabout, to/from the A5001 Crownway and the B645 Northampton road. Signed diversion routes will be installed.

Both diversions will be in place during the full closures of both the A45 Eastbound and Westbound approach and departures.

Access to Businesses and Residents, within the A45 Eastbound closure will remain but will be strictly controlled. If your access is affected by this planned closure and you would like further details of access arrangements on the closure nights, then please contact the Site Team as below.

In addition to the A45 closures detailed above, full closures of the A5001 Crownway and A5001 Northampton are scheduled for the nights of Monday 12th to Friday 16th June 2017 between 21:00 and 06:00 hrs. This is required to allow safe installation of new earthworks, and asphalt surfacing. Signed diversion routes will be installed.

Works to widen the existing footpath on the A5001 Crownway, on the Wickes side of the carriageway, are continuing. These works will extend from the junction of the A5001 Northampton Road to the East Northamptonshire Greenway cycle and footpath network, adjacent to Morrisons. We still kindly request those motorists who park on the verge remain

vigilant as the works proceed and that alternative parking arrangements are found to suit. We thank you for your cooperation so far.

We are committed to minimising the impact of our works on the local community and are managing the works accordingly. Should you feel that at anytime this is not the case or would like more information about the project, then please contact the Highways England Customer Contact Centre (CCC) on 0300 123 5000 or visit the Highways England website.
